

SELECTORIZED HIP THRUST

GR624

Compact and heavy duty.

Wide Adjustable Footplate.

5 point adjustable height.

Swinging arm for easy access.

Handle Bar for support.

The BodyKore Selectorized Hip Thrust is a commercial glute building machine. The pivoting back pad allows the user to thrust their hips upwards and contract their glutes. The BodyKore hip thrust has a swinging lever arm that allows the user to easily get in and out of the seat.

The stack weight is easily accessible from the seated position so the user can increase/decrease weights conveniently between reps. The machine comes with a 220lb weight stack that is upgradeable to 340lbs.

Dimensions
63" x 50" x 65"

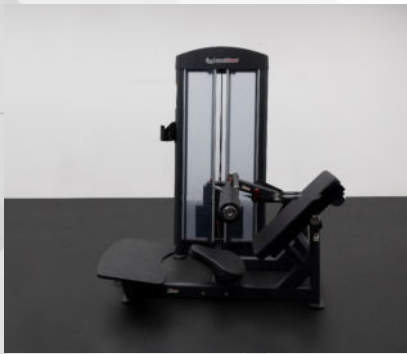

Weight
490lbs

Weight Stack
220lbs; Upgradeable to 340 lbs.
