The BodyKore MX1161 Functional Trainer – Dual Adjustable Pulley System is equipped with 220lb weight stacks and accessories storage – to help you achieve amazing results in the comfort of your own home gym or garage gym set-up. This piece of functional equipment provides exercises such as cable rows, squats, presses, lat pushdowns, chest flies & so much more. The Functional Trainer is constructed of heavy gauge rolled steel

tubing, high quality cables and pulleys. The MX1161 is adaptable to many spaces because of its accessory storage feature. These aspects make the Functional Trainer a great fit to every gym space and workout. This combination of versatile performance and weight adjustments, gives you the most rewarding results. This machine is commercial grade and rated to hold over 1000lbs.
